Mastering Control Templates

Thomas Claudius Huber
Software Developer

@thomasclaudiush www.thomasclaudiushuber.com

Module Outline

Define the look of a custom control

Create a control template for the CheckBox

- Adjust the look of the CheckBox

Define the Look of a Custom Control

User controls

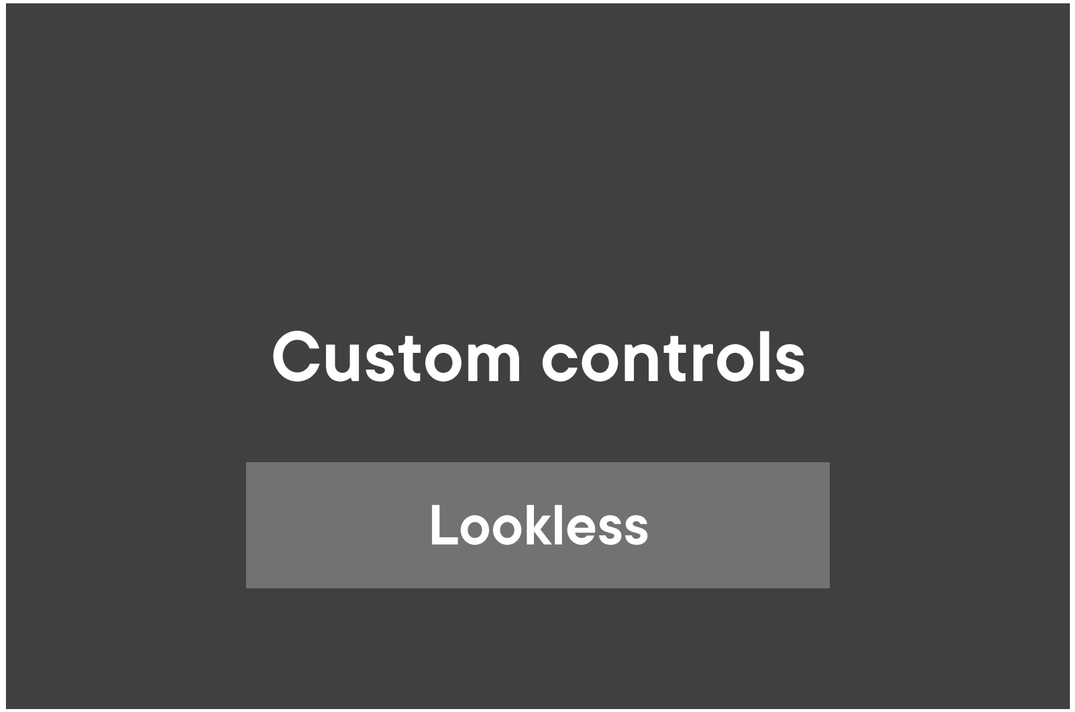
Custom controls

Lookless

Define the Look of a Custom Control

User interface is defined in a **ControlTemplate**

Can be changed by setting the **Template** property



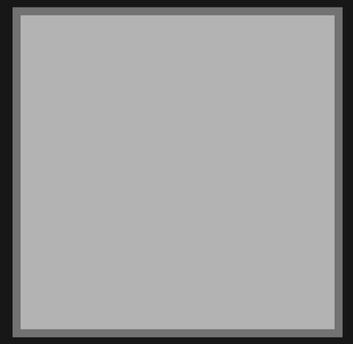
All WinUI controls are implemented as custom controls

When you build a WinUI app,
you usually create
user controls

Set the Template Property

```
<Button Width="50" Height="50">

</Button>
```



Set the Template Property

```
<Button Width="50" Height="50">
  <Button.Template>
    <ControlTemplate TargetType="Button">
      <Ellipse Fill="Orange"/>
    </ControlTemplate>
  </Button.Template>
</Button>
```

Set the Template Property

```
<Button Width="50" Height="50" Background="Blue">
  <Button.Template>
    <ControlTemplate TargetType="Button">
      <Ellipse Fill="Orange"/>
    </ControlTemplate>
  </Button.Template>
</Button>
```

Set the Template Property

```
<Button Width="50" Height="50" Background="Blue">
  <Button.Template>
    <ControlTemplate TargetType="Button">
      <Ellipse Fill="{TemplateBinding Background}"/>
    </ControlTemplate>
  </Button.Template>
</Button>
```

Set the Template Property

```
<Button Width="50" Height="50" Background="Blue">
  <Button.Template>
    <ControlTemplate TargetType="Button">
      <Ellipse Fill="Orange"/>
    </ControlTemplate>
  </Button.Template>
</Button>
```

Set the Template Property

```
<ControlTemplate TargetType="Button">
  <Ellipse Fill="Orange"/>
</ControlTemplate>
```

Set the Template Property

```
<Style TargetType="Button">
  <Setter Property="Template">
    <Setter.Value>
      <ControlTemplate TargetType="Button">
        <Ellipse Fill="Orange"/>
      </ControlTemplate>
    </Setter.Value>
  </Setter>
</Style>
```

Instead of creating a control template from scratch, you usually create a copy of the default control template

Demo

Create a control template for the CheckBox

Demo

Adjust the look of the CheckBox

Summary

User controls and custom controls

- User controls are the components that you build in your application
- All WinUI controls are custom controls

Change the look of a custom control

- Set the Template property
- Create a copy of the control template
- Adjust the control template
